THE DONG-A ILBO

SOME YEAR-END REFLECTIONS

(Centimied from yesterday.)

The year that has some dozen hours eff to finish its round has been unkind o China. It found her under misgovernnent. It found her under misgovern nent. It now leaves her between misgovern nment and anarchism. But for the conernment and anarchism. But lot the con-flicting wire-pulling of antegonistic foreign influences, her affairs would have been settled long ago. Fortunately the Chinese are the best qualified people to go with-out a Government. The dins of ever-recurring battles do not seem to interrupt their mercy making with pices and cymbals recurring battles do not seem to line repo their merry making with pipes and cymbals so much as might be expected.

The two outstanding facts in international relationships during the fateful year, are the coming into force of the so-called anti-Japanese Immigration Act no July 1; and the dramatic coup d'etat in Peking on Oct. 28. They are more likely than unlikely to be the precursors of the much-feared struggle in the Pacific. One party thas set down plans to hold naval maneuvres on a scale-unknown before, choosing as its imaginary foe the other party that can not but view that activity as a menace and denunciates it in an offensive manner. Unless something quite miraquage happens and intervenes between the two suspicious parties, the prospects of their future relations are nothing but gloomy. On the whole, the year has sown seeds of discord and strife, the effects of which the world will have to feel for years to come.

As for Korea the year has brought a dreadful drought and devastating floods over a large area. The transference of South Kyung-sang provincial government from the old seat Chinju, a mostly Korean town regarding its population, to Fusan, a purely Japanese port, is no small calamity to the affected district. Rumours say that amother change of the same nature in every defail will soon take place. All this leaves no doubt. For all the fair-spoken promises of Mr. Shimooka, the Civil Administration, more concentrated care will be taken of the Japanese interests in Korea, to the undoing of the native sons. Our outlook is anything but bright. But to hope will we cling, for every cloud has a silver lining. Farewell, Old Year! We are armed with resolution and hope! Whatever the future may bring us, we will always play the part- of a man that loves freedom and instice and that strives to prove himself worthy of such. Farewell, Old Year!
